

Alternativa con Calidad®

BUSINESS CURRICULUM

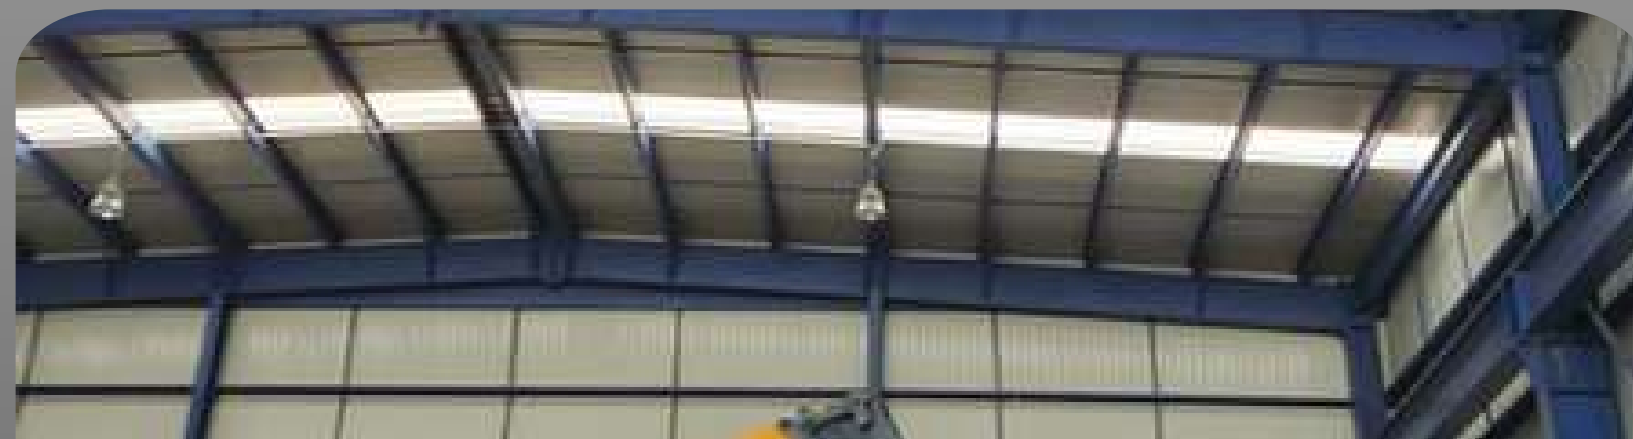

SECOND SEMESTER 2025

**Architecture, engineering
and construction solutions.**

VALUE PROPOSAL

Ingeniería MEDI is committed to be your ally and business partner to offer the best solution and service in the industry of manufacturing and assembly of steel structure and decking.

We have a diverse team of professionals with a high sense of responsibility, talent, creativity and experience.

WHO ARE WE?

We are a Mexican company with more than 20 years of experience serving the construction industry by offering efficient and quality solutions in architecture, engineering, fabrication, transportation and assembly of steel structures and decking, supporting residential and large infrastructure project

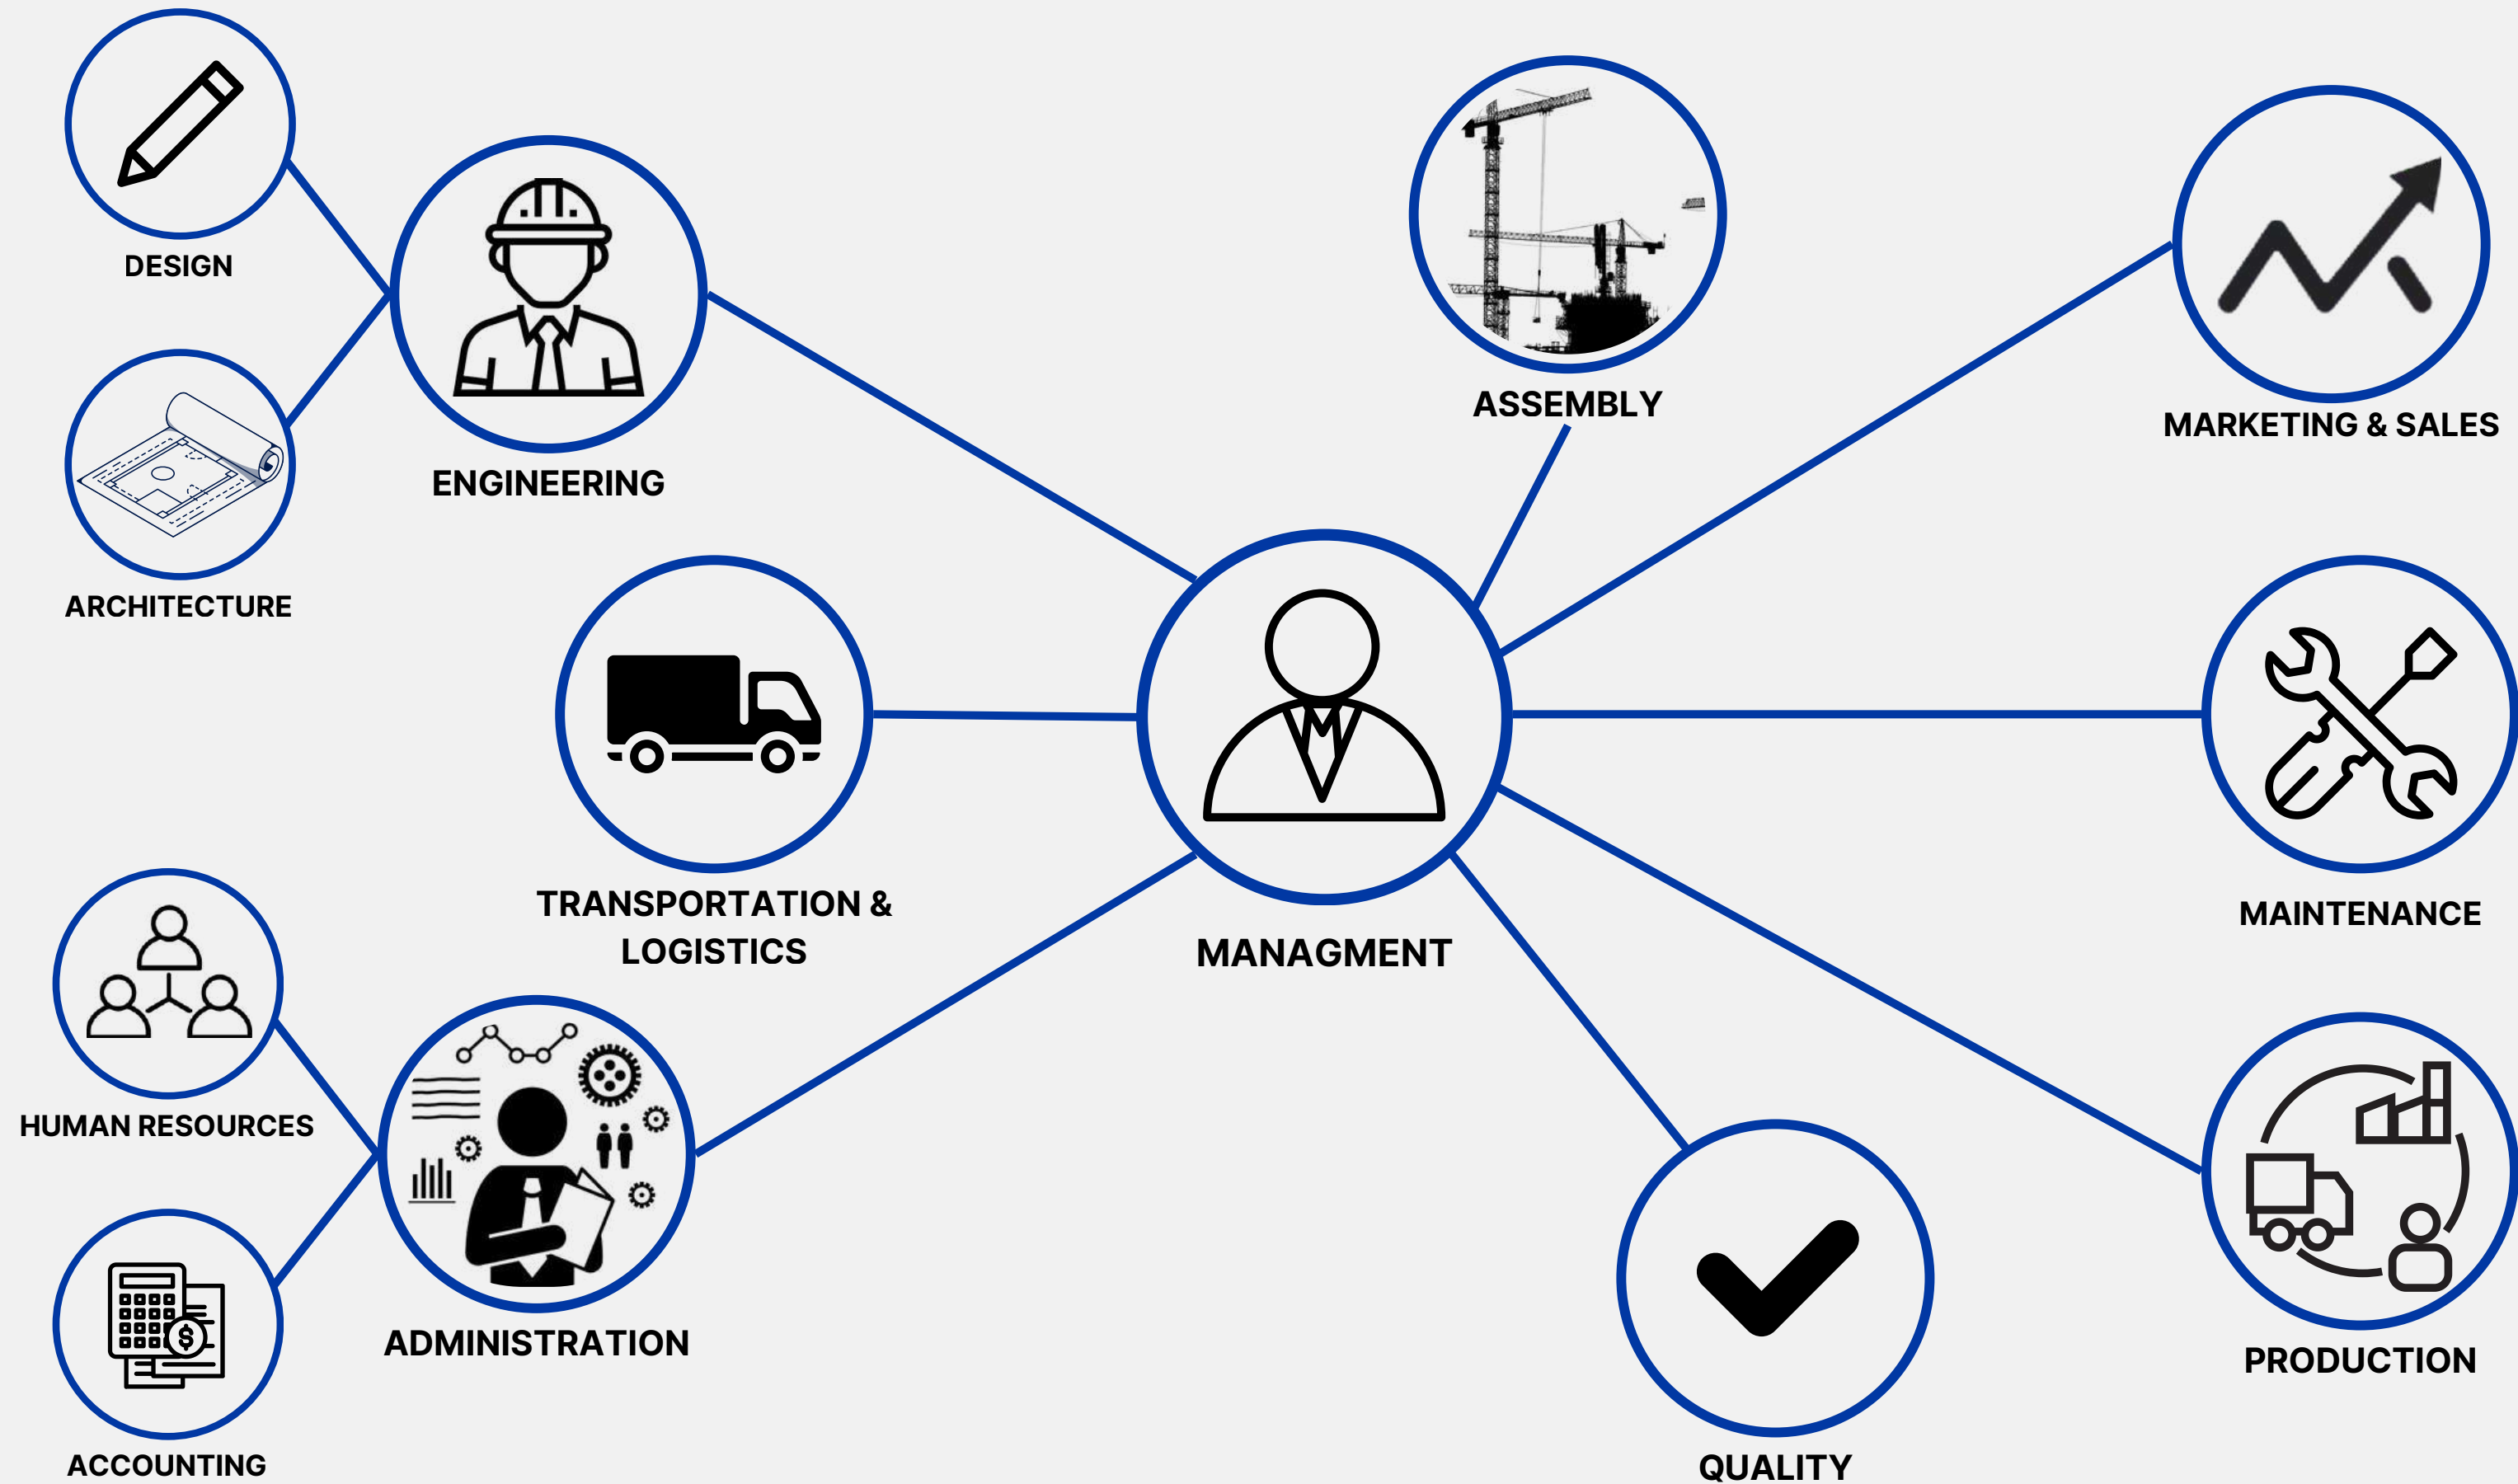

OUR PHILOSOPHY

We seek to be a global reference in the transformation of structural steel, promoting innovation and efficiency in our processes. We offer integral solutions in design, engineering, assembly and supply for the manufacture and assembly of steel structures and decking, ensuring quality, compliance and competitive costs.

INDUSTRIAL PROJECTS

Set of works focused on the construction, expansion, and adaptation of production and logistics facilities. These include industrial warehouses, manufacturing plants, and silos, designed to optimize manufacturing, storage, and distribution processes, with high engineering and safety standards.

Vigman Graphics Warehouse

Atotonilco de Tula, Hidalgo

Work: Construction of warehouse and offices, maneuvering yard, guardhouse.

Client: DELMAN S.A. de C.V.

Area: 18,000 m² (193,750.39 ft²)

Date: July 2023 – November 2024

Scan to see
more photos:

Ricardo Pérez Becerra Warehouse

Atotonilco de Tula, Hidalgo

Work: Steel Structure and Decking.

Surface area: 887.69 m² (9,555.015 ft²)

Date: November 2024 - In progress

Scan to see
more photos:

Warehouse 02, Parque Industrial La Pila

La Pila, San Luis Potosí

Work: Steel Structure, Deking.

Surface area: 1,436.96 m² (15,467.30 ft²)

Date: June 2024 - In progress

Scan to see
more photos:

Cover CDC & CADI

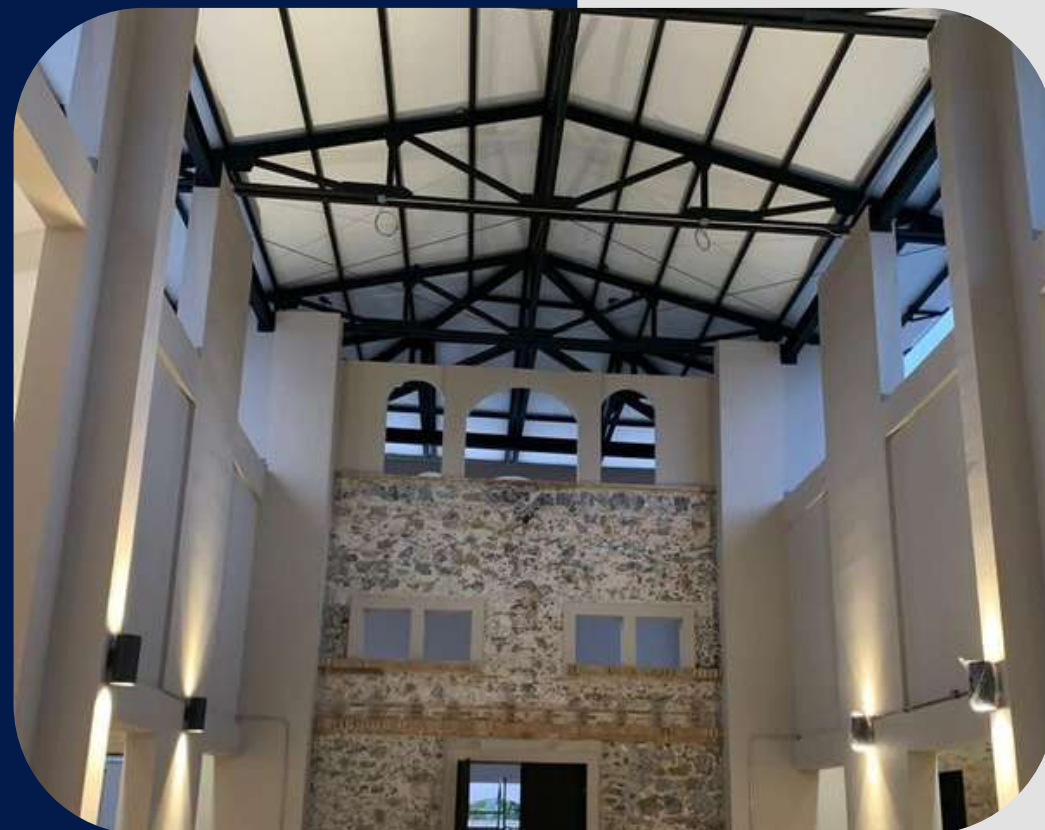

Xalapa, Veracruz

Work: Manufacture, supply, and assembly of metal structures for roofing and installation of multi-panels. Supply and manufacture of ironwork.

Surface area: 1,436.96 m² (15,467.30 ft²)

Date: June 2024 - In progress

Scan to see
more photos:

Cover “La Canchita”

Santa Maria Mixtequilla, Oaxaca

Work: Manufacture and assembly of metal structure for roof.

Date: April 2023

Scan to see
more photos:

Silos

Acámbaro, Guanajuato

Work: Structure, Painting, Laminating,
and Metalwork.

Date: January 2024 – February 2024

Surface area: 137.35 m² (1,478.42 ft²)

HOUSING AND PRIVATE PROJECTS

Developments ranging from residential complexes to high-rise buildings,
designed to provide comfort, safety, and quality construction.

San Andrés Residential Park

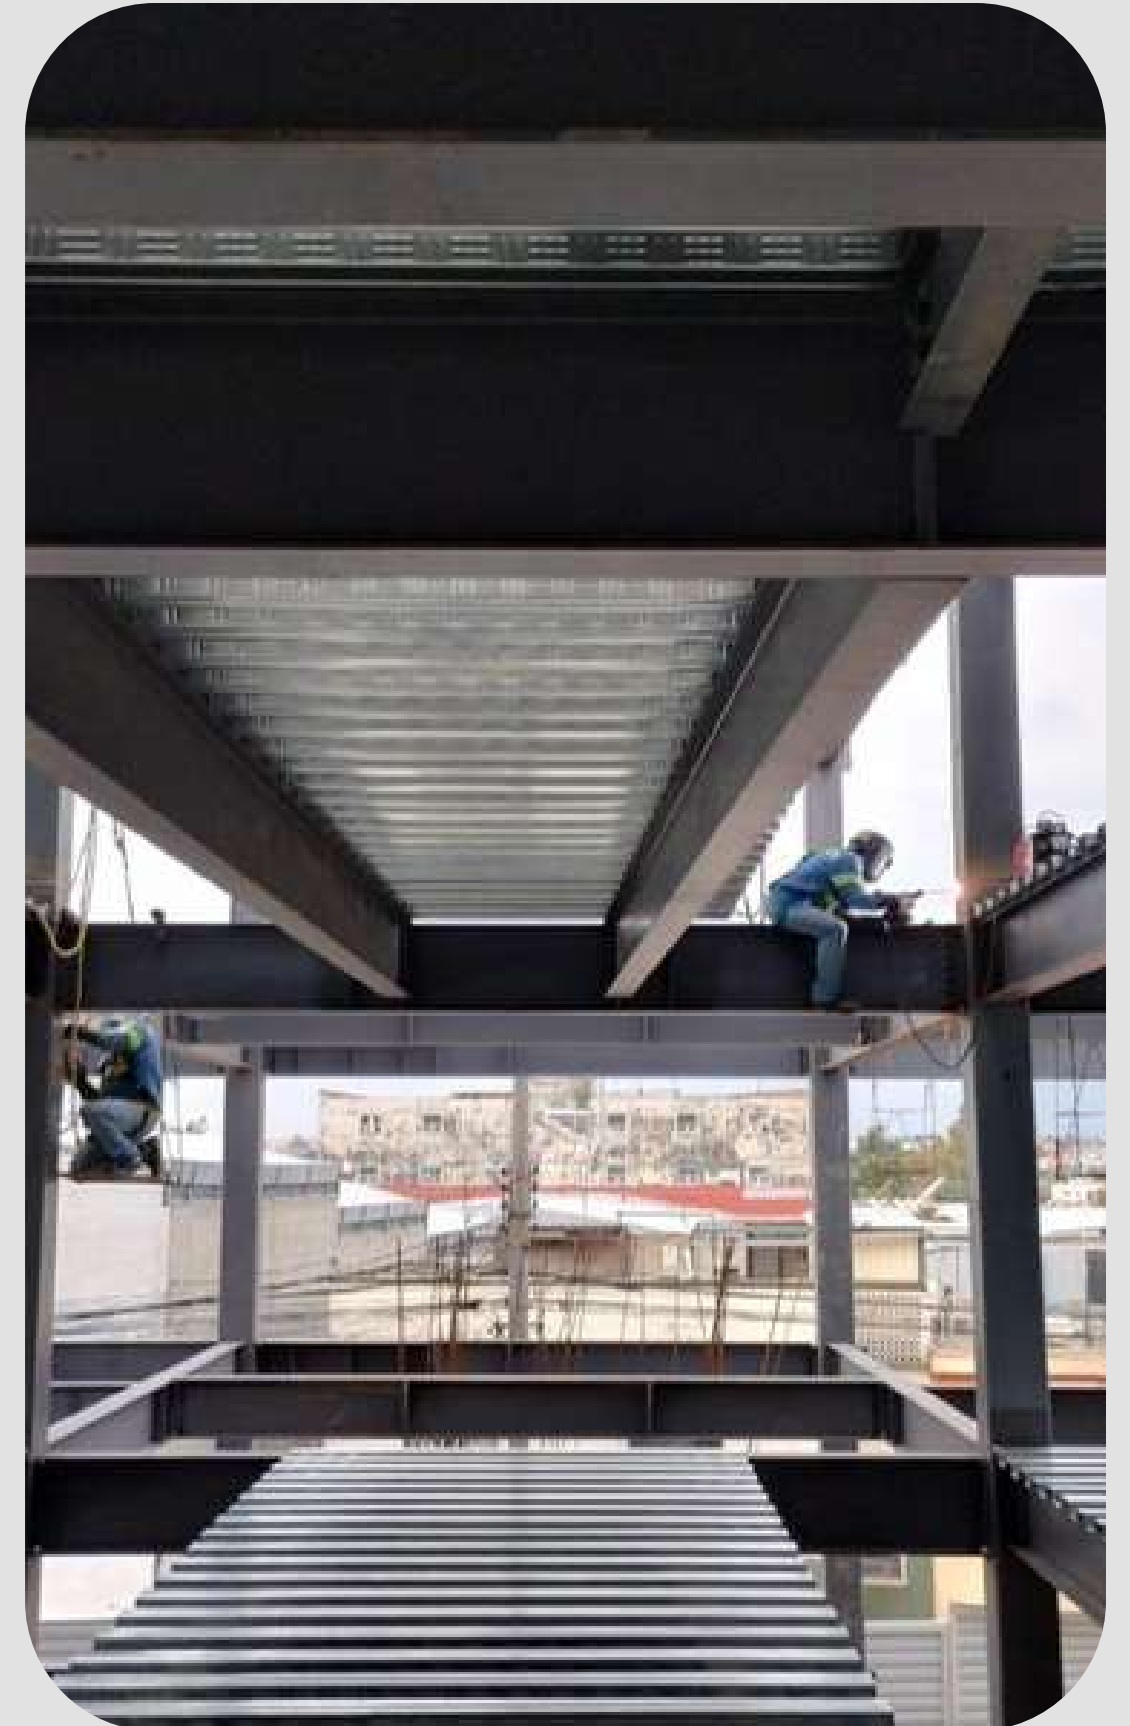

Tlalnepantla de Baz, Edo. Mex

Work: Structure and decking.

Surface area: 2,903.30 m² (31,250.86 ft²)

Date: July 2024 – (In progress)

Scan to see
more photos:

Islandia Building #5

Cuautitlán Izcalli, Edo Mex

Work: Steel Structure and Decking.

Surface area: 163.04 m² (1,754.94 ft²)

Date: December 2024 - In Progress

Scan to see
more photos:

Osa Mayor & Centauro INVI Buildings

Ciudad de México

Work: Steel Structure

Surface area: 6,930.38 m² (74,597.98 ft²)

Date: December 2018 - December 2019

Scan to see
more photos:

The background of the slide is a photograph of a multi-story building under construction. The image is heavily filtered with a dark blue color, making the steel beams and concrete structure appear in shades of blue and grey. The perspective is from a low angle, looking up at the building's facade. The text is overlaid on this background.

PUBLIC AND URBAN INFRASTRUCTURE PROJECTS

Projects that improve and modernize community services and spaces, such as municipal markets, road infrastructure, and iconic public works. These constructions strengthen connectivity, local identity, and urban quality of life.

Supply Center
